

REMARKS

Claims 1-4 have been amended herein. Claims 5-25 have been canceled herein without prejudice. Claims 1-4 are now remaining in the application. Support for the amendment is found in the original claims, Specification, and Drawings. No new matter has been added. Entry of the amendment is respectfully requested. Reconsideration is respectfully requested.

Applicants respectfully traverse the restriction requirement on the grounds that Figures 2 and 3 correspond to a common species. For example, Figure 3 shows an axial view of the anchor (16) shown in Figure 2 (See the description of Figure 3 at page 5, lines 21-23).

Further, Applicants respectfully traverse the restriction requirement on the grounds that amended claims 1-4 recite features consistent with all of the Figures 2, 3 and 4 and therefore are all generic claims. Withdrawal of the restriction requirement to a single one of Figures 2, 3 and 4 is respectfully requested.

Conclusion

The undersigned will be happy to discuss any aspect of the Application by telephone at the Examiner's convenience.

Respectfully submitted,

/Christopher L. Parmelee/
